

# ROSETS

## ROSÉ DE LOIRE

Appellation d'Origine Protégée

### Mainly Cabernet

Rosé de Loire AOC is produced in the Loire Valley region. This appellation is spread over the Anjou AOC areas and AOC Touraine. The temperate oceanic climate is ideal for the proper ripeness.

Rosé de Loire is a dry, fruity rosé. It is the perfect summer wine, very rounded with little acidity. An orangey-pink wine with delicate aromas reminiscent of fresh fruit and English sweets. It is very rounded in the mouth, making it an easy wine to drink.

To drink young.

Serve chilled between 8° and 10°C.

This wine will be perfect with pizzas, summer dishes (taboulé with mint, niçoise salad, mixed salads, grilled meat or fish ...), cold meats, fresh pasta ...
